The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-26 are under 35 U.S.C. 103(a) as obvious over Rudo (US 5,176,951) in view of Silvestrini et al (US 4,610,688) or Kapadia et al (US 4,816,028), and further in view of Head (US 6,250,193) with or without Akahane et al (US 5,962,550).

The rejection is maintained for reason of record and following response.

Applicant asserts with a declaration that the modification of the Rudo invention to use a triaxial material instead of Leno weave material taught by Rudo would render the Rudo invention unsatisfactory for the intended purpose.

However, such assertion has little probative value since Rudo discloses Leno weaves having a triaxial structure (twisting adjacent warp yarns around each other, then passing the filling yarn through the twisted warps) at col. 5, lines 34-41, and such triaxial structure is taught by Kapadia et al (Fig. 3) and Silvestrini et al (Figs. 1 and 2).

Applicant asserts that the triaxial materials are not well adapted for dental repairs since it is too rigid. But, the examiner disagrees with such assertion since Rudo teaches Leno weaves at col. 5, lines 27-41 wherein various patents are incorporated by references. One of said patent is US 4,816,028 to Kapadia et al.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
